

First Link[®] is your link to a community of learning, services and support

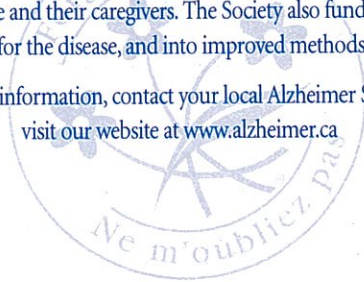

The first steps in the Alzheimer journey are similar to the steps we would take when beginning any other voyage. We need to plan early, anticipate any problems we may encounter along the way, talk to others who have already been there, learn about where we are going and how best to get there. First Link[®] can help with those first steps and support you on your journey.

The Alzheimer Society advocates for people living with Alzheimer's and related diseases across Canada. The Society believes everyone living with these diseases should have access to treatments that enhance their quality of life.

The Alzheimer Society is a national not-for-profit health organization dedicated to helping people affected by Alzheimer's and related diseases. The Society has numerous resources and support programs for people with the disease and their caregivers. The Society also funds research into finding a cure for the disease, and into improved methods of caregiving.
